

SAFE

Never give out personal information to strangers on the internet. This includes things like your home address, your phone number & your birthday.

MEETING

Never ever meet up with a stranger you have met online, unless a parent or guardian has said it is OK and is present. Remember: online friends are still strangers even if you have been speaking with them for a while.

ACCEPTING

Don't open emails or files from people that you don't know. They could contain things which are bad for your computer or tablet.

RELIABLE?

Don't believe everything you read online! Check your facts! Did you read it on a reliable website like the BBC? Are there other sites saying the same thing? Does it tell you where the information is from?

TELL

If you have an online safety problem, make sure that you tell someone. Tell a parent, carer or teacher as soon as you possibly can.
